People

Behind every great product is a team of hard-working people. From our supply chain and sourcing partners to our wonderful colleagues we make it our mission to create a business built on the power of people.

SUSTAINABILITY AT SJ

Responsible sourcing

More than 2 million garments are manufactured under the Simon Jersey uniform brand every year, so it is important that sustainability is high on our agenda. We recognise that it's our duty to ensure everything manufactured on our behalf is done in a way that's respectful of the people who make it and the environment.

To ensure that we meet the highest standards in terms of responsible sourcing, we have adopted a code of standards based on the ETI Base Code. We arrange an independent external audit with any new supplier (depending upon workload and cost) at the start of our relationship with them, and at regular intervals, to ensure ongoing compliance with human rights, labour rights, anti-corruption measures and environmental responsibility.

All new suppliers go through a stringent on boarding system to cover all aspects of CSR and REACH which must be signed by the supplier before commencing work for us.
